

## Movement Between Teams

NYSA/Oklahoma Celtic finds it very important to make sure all players are playing at the correct level and being challenged just enough to help their development. Sometimes the coaching staff will find the best option to be moving a player to a new environment. If a player is moved this can result in an increase or decrease of fees for the remainder of the season or year. As soon as this move is approved by the appropriate director your player will be moved in the system and the fees will be updated according to the amount of games and events left for the new team.
